(6) Manipulation or manufacture in a warehouse or in a foreign-trade zone with respect to merchandise arriving in the United States from any country after that date if the country of origin of such merchandise is China (except Formosa) or North Korea until

(i) A specific license pursuant to this chapter is presented, or

(ii) The provisions of paragraph (e) of this section shall have been complied with, or

(iii) Instructions from the Foreign Assets Control either directly or through the Federal Reserve Bank of New York authorizing the transaction are received.

(b) Whenever a specific license is presented to a collector of customs in accordance with this section, two additional legible copies of the entry, withdrawal or other appropriate document with respect to the merchandise involved shall be filed with the collector of customs at the port where the transaction is to take place. Each copy of any such entry, withdrawal or other appropriate document including the two additional copies, shall bear plainly on its face the number of the license pursuant to which it is filed. The original copy of the specific license shall be presented to the collector in respect of each such transaction and shall bear a notation in ink by the licensee or person presenting the license showing the description, quantity, and value of the merchandise to be entered, withdrawn or otherwise dealt with. This notation should be so placed and so written that there will exist no possibility of confusing it with anything placed on the license at the time of its issuance. If the license in fact authorizes the entry, withdrawal or other transaction with regard to the merchandise the collector, or other authorized customs employee, shall verify the notation by signing or initialing it after first assuring himself that it accurately describes the merchandise it purports to represent. The license shall thereafter be returned to the person presenting it and the two additional copies of the entry, withdrawal or other appropriate document shall be forwarded by the collector to the Federal Reserve Bank of New York.

(c) (1) The collector of customs at any port at which merchandise is to be entered or withdrawn pursuant to the terms of a specific license may waive the requirement of presentation of the orig-

inal copy of such license: *Provided*, That:

(i) The person presenting the entry or withdrawal presents to the collector an affidavit stating:

(a) Facts indicating that it would be a hardship for him to present the original copy of the license, and

(b) That the entry or withdrawal is one of a large number which are to be made pursuant to the same license, and

(c) That all the entries or withdrawals are to be made at the same port; and

(ii) The collector receiving such an affidavit is satisfied that the circumstances in fact warrant the waiver; and

(iii) There is presented to the collector either a photostatic copy of the original license or a copy of the license signed by the officer who issued and signed the original.

(2) If such waiver is granted, the collector shall retain the copy of the license presented to him and shall note on it, or cause to be noted on it, the description, quantity, and value of all merchandise entered or withdrawn from time to time pursuant to the authority therein contained.

(3) When such waiver is granted and all the merchandise authorized to be entered or withdrawn under a specific license has been entered or withdrawn, the copy of the license on file with the collector shall be endorsed to indicate this fact and shall be forwarded to the Federal Reserve Bank of New York. When a license expires, unless it is renewed and the collector is advised of its renewal, any copy thereof which is on file with the collector shall be endorsed to show the expiration and shall be forwarded to the Federal Reserve Bank of New York.

(d) The requirement that two additional copies of each entry or withdrawal be filed in connection with every transaction under a specific license shall remain in effect notwithstanding any waiver of the requirement of presenting the original copy of the license.

(e) Whenever a person shall present an entry, withdrawal or other appropriate document and shall assert that the entry, withdrawal or other transaction with respect to the merchandise affected by this section is authorized pursuant to § 500.534 he shall be required to file two additional legible copies of the entry, withdrawal or other appropriate document upon the face of each of which shall appear the statement "Effected pursuant to § 500.534 of the Foreign Assets Control Regulations". He shall also attach to each of the two additional copies a signed additional statement setting forth full details regarding all payments made or to be made with respect to the merchandise or its importation, including the names of all persons who have been or will be paid in connection therewith and the manner of such payment. This statement shall include a declaration with respect to the name of the domestic bank or banks in which payments have been or will be made and the names of blocked account or accounts in such banks which have been or will be cred-

ited and shall specify the amount or amounts so credited or to be credited. The two additional copies of the entry, withdrawal or other appropriate document together with the attached copies of the additional statement, shall be forwarded by the collector of customs to the Federal Reserve Bank of New York.

(f) Whenever a person shall present an entry, withdrawal or other appropriate document affected by this section and shall assert that no Foreign Assets Control license is required in connection therewith, the collector of customs shall withhold action thereon and shall advise such person to communicate directly with the Federal Reserve Bank of New York to request that instructions be issued to the collector to authorize him to take action with regard thereto.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 9]

CPR 9—TERRITORIES AND POSSESSIONS

Pursuant to the Defense Production Act of 1950 (Public Law 774, 81st Congress), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Ceiling Price Regulation 9 is hereby issued.

STATEMENT OF CONSIDERATIONS

The General Ceiling Price Regulation, issued January 26, 1951, established maximum prices for the territories and possessions on the basis of delivered prices during the base period from December 19, 1950, to January 25, 1951, inclusive.

The difficulties with applying the freeze prices under the General Ceiling Price Regulation to the territories and possessions are bound up with the problems of isolation and transportation facilities. The abnormal lag which exists because of the distances which must be traversed to make deliveries in the territories and possessions has caused, and is causing, serious maladjustments and undue hardship. Many commodities essential to life in the territories and possessions have been delivered, are being delivered, and will be delivered to sellers at prices in excess of the seller's ceiling prices as established under the General Ceiling Price Regulation, or at prices which make it impossible for sellers at any level to sell at a profit. Prices are being quoted for future delivery of some of these essential commodities to sellers in the territories and possessions substantially above the seller's ceiling under the General Ceiling Price Regulation. The flow of many commodities to the territories and possessions has stopped completely. An example of this situation is the fact that no rice is now being shipped to Puerto Rico. Rice is the basic food of Puerto Rico and, with the exception of an inconsequential amount which is grown on the island, all of the rice consumed there is shipped from the Continental United States. Most items marketed in the territories and possessions are purchased in the Continental United States and within ceilings established for the Continental United States.

This regulation establishes ceiling prices on all commodities sold in the territories and possessions which are not actually manufactured or produced in the territory or possession where the commodity is offered for sale, based on the direct cost to the seller of the commodities sold plus the dollar-and-cents markup included in the price at which the seller sold the same commodity to a purchaser of the same class during the period from December 19, 1950, to January 25, 1951, inclusive. Alternative methods of establishing ceiling prices are established where the seller made no sale of the commodity during the base period or did not previously handle the same commodity.

This regulation will effect a general adjustment in the prices of the territorial sellers on commodities not manufactured or produced in the particular territory or possession so as to authorize the passing through of increases in the direct costs where such increases occurred in the base period but were not reflected in the sellers' prices in the territories or where increases in the direct costs continue. At the same time, this regulation freezes the dollar-and-cents markup to the amount received during or prior to the base period. The hardship situation now experienced by territorial sellers on commodities covered by the regulation will as a result of it be relieved in a manner consistent with the effectuation of the fundamental stabilization objectives of the Defense Production Act of 1950.

FINDINGS OF THE DIRECTOR OF PRICE STABILIZATION

In the judgment of the Director of Price Stabilization the discrepancies in the ceiling prices for the Continental United States and the territories and possessions have created a situation that is inconsistent with the purposes of the Defense Production Act of 1950.

In the judgment of the Director of Price Stabilization, the ceiling prices established by this regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950.

So far as practicable, the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950; to prevailing prices during the period from May 24, 1950, to June 24, 1950, inclusive; and to relevant factors of applicability.

In the formulation of this regulation special circumstances have rendered impracticable consultation with industry representatives including trade association representatives. However, prior to the formulation of this regulation public hearings were conducted in the territories and possessions under the direction of the territorial directors of the Office of Price Stabilization for each of said territories, as a result of which the Director of Price Stabilization has received advice from a large number of persons representing substantial segments of the trade and industry which will be affected by this regulation.

AUTHORITY: Sections 1 to 15 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply Title IV, Public Law 774, 81st Cong.: E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.

SECTION 1. What this regulation does. The purpose of this regulation is to establish ceiling prices for all commodities (except those specifically exempt under any price regulation or order issued under the authority of the Director of Price Stabilization) which are not actually manufactured or produced in the particular territory or possession in which they are sold, upon the basis of the direct cost plus the dollar-and-cents markup in effect during the period from December 19, 1950, to January 25, 1951, inclusive. This period is referred to as the "base period." This regulation supersedes the General Ceiling Price Regulation for all commodities included within this section.

SEC. 2. Applicability and prohibitions—(a) Applicability. The provisions of this regulation are applicable to Alaska, Guam, Hawaii, Puerto Rico, Samoa and the Virgin Islands.

(b) Prohibitions. After the date of this regulation, regardless of any contract or other obligation, no commodity included within section 1 shall be sold, or purchased, in the regular course of business or trade, at a price exceeding the ceiling price established by this regulation.

SEC. 3. Ceiling prices for commodities sold in the base period. Your ceiling price for sale of a commodity is your direct cost of the commodity plus the dollar-and-cents markup included in the price at which you delivered it during the base period to a purchaser of the same class. If you delivered the commodity to purchasers of the same class at more than one price, your ceiling price is your direct cost of the commodity plus the average of your dollar-and-cents markups included in the prices at which the commodity was so delivered during the base period.

If you did not deliver the commodity during the base period, your ceiling price is your direct cost of the commodity plus the dollar-and-cents markup included in the price at which you offered it for base period delivery to a purchaser of the same class. If you offered the commodity for delivery to purchasers of the same class at more than one price your ceiling price shall be your direct cost of the commodity plus the average of your dollar-and-cents markups included in the prices at which the commodity was so offered for delivery during the base period. The offer must have been made in writing, but in the case of a retailer may have been made by display.

SEC. 4. Ceiling prices for commodities customarily handled by sellers but not sold in the base period. If you wish to determine a ceiling price for a commodity which you customarily handle in the course of your business, but which you

did not deliver or offer for delivery during the base period, you may determine your ceiling price by adding to your direct cost the average of the dollar-and-cents markups included in the price (or prices) at which you delivered the commodity to a purchaser (or purchasers) of the same class in the calendar year 1950, provided that you can establish through your records the direct cost of the commodity and the average markup which you charged for it.

SEC. 5. Ceiling prices for new commodities falling within categories dealt in during the base period. Your ceiling price for a commodity you did not deliver or offer for delivery in the base period, and for which you do not choose to determine your ceiling price under section 4, which falls within a "category" in which you dealt during the base period, is determined by adding to your direct cost the dollar-and-cents markup you are currently receiving on a "comparison commodity."

The comparison commodity must be in the same category as the commodity being priced; must be a commodity for which your ceiling price was determined under section 3; and must be, of the commodities in that category, the one customarily bearing the same markup as the commodity being priced.

You are required, by section 9 of this regulation, to prepare a list of your categories and in applying the pricing provisions of this section refer to this list.

SEC. 6. Sellers who cannot price under other sections. If you claim that you are unable to determine your ceiling price for a commodity under any of the foregoing provisions of this regulation, you may apply in writing to the territorial director for the territory in which the sale is to be made for the establishment of a ceiling price. This application shall contain an explanation of why you are unable to determine your ceiling price under any other provision of this regulation; all pertinent information describing the commodity or service, and the nature of your business; your proposed ceiling price and the method used by you to determine it; and the reason you believe the proposed price is in line with the level of ceiling prices otherwise established by this regulation. You may not sell the commodity until the Director of Price Stabilization, in writing, notifies you of your ceiling price.

SEC. 7. Modification of proposed ceiling prices by Director of Price Stabilization. The Director of Price Stabilization may at any time disapprove or revise ceiling prices reported or proposed under this regulation so as to bring them into line with the level of ceiling prices otherwise established by this regulation.

SEC. 8. Customary price differentials. Your ceiling prices, when determined, shall reflect your customary price differentials, including discounts, allowances, premiums and extras, based upon differences in classes or location of purchasers, or in terms and conditions of sale or delivery.

SEC. 9. Records.¹ This section tells you what records you must preserve and what additional records you must prepare.

(a) *Base period records.* (1) You must preserve and keep available for examination by the Director of Price Stabilization those records in your possession showing the prices charged by you for the commodities which you delivered or offered to deliver during the base period, and also sufficient records to establish the latest direct cost incurred by you prior to the end of the base period in purchasing the commodities.

(2) In addition, on or before April 1, 1951, you must prepare and preserve a statement showing the categories of commodities in which you made deliveries and offers for delivery during the base period.

(3) On or before April 1, 1951, you must also prepare and preserve a price list, showing the dollar-and-cents markups on the commodities in each category (listing each model, type, style, and kind), delivered or offered for delivery by you during the base period together with a description or identification of each such commodity. If you are a retailer you may satisfy the requirement of this paragraph (3) by recording on your purchase invoices, covering the commodities (including every model, type, style, and kind) delivered or offered for delivery by you during the base period, the price at which you sold, or offered the commodities for delivery, during the base period.

(4) You must also prepare and preserve a statement of your customary price differentials for terms and conditions of sale and classes of purchasers, which you had in effect during the base period.

(b) *Current records.* If you sell commodities covered by this regulation you must prepare and keep available for examination by the Director of Price Stabilization for a period of two years, records of the kind which you customarily keep showing the dollar-and-cents markups which you add to your direct costs in arriving at the prices which you charge

¹ The record-keeping requirements imposed by this regulation on commodities of the type described in section 1 differ in certain respects from those imposed by the General Ceiling Price Regulation. In place of the "net cost", a term employed in the General Ceiling Price Regulation, this regulation refers to "direct cost", which is defined in section 15 to include certain elements not included under "net cost". Whereas the General Ceiling Price Regulation required the preparation of a list of ceiling prices, this regulation requires that the list include, also, dollar-and-cents margins. The current record requirement of the General Ceiling Price Regulation relates to prices; the current record requirement of this regulation relates to markups. The dates by which certain records must be prepared differ in the two regulations. A seller handling commodities covered by this regulation and also commodities still covered by the General Ceiling Price Regulation may include in a single list, as required by this regulation the appropriate information required by either regulation.

for commodities. In addition, you must prepare and preserve records indicating clearly the basis upon which you have determined the ceiling price for any commodities not delivered by you or offered for delivery during the base period. If you are a retailer you are required to preserve your purchase invoices and to record thereon both your initial selling price and the section of this regulation under which you have determined your ceiling price.

SEC. 10. Sales slips and receipts. Any seller who has customarily given a purchaser a sales slip, receipt, or similar evidence of purchase, shall continue to do so. Upon request from a purchaser any seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the name of each commodity sold, and the price received for it.

SEC. 11. Evasion. Any practice which results in obtaining indirectly a higher price than is permitted by this regulation is a violation of this regulation. Such practices include, but are not limited to, devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, tie-in agreements and trade understandings.

SEC. 12. Transfers of business or stock in trade. If the business, assets or stock in trade of any business are sold or otherwise transferred after January 25, 1951, and the transferee carries on the business, or continues to deal in the same type of commodities in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this regulation.

SEC. 13. Separate statement of taxes. In addition to your ceiling price, you may collect the amount of any excise, sales or similar taxes paid by you as such only if, during the base period, you stated and collected such taxes separately from your selling price. In the case of such a tax imposed by law which is not effective until after the date of issuance of this regulation, you may collect the amount of the tax actually paid as such by you, in addition to your ceiling price, if not prohibited by the tax law. You must in all such cases state separately the amount of the tax.

SEC. 14. Penalties. Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Defense Production Act of 1950.

SEC. 15. Definitions and explanations. This Ceiling Price Regulation and the terms which appear in it shall be con-

strued in the following manner, unless otherwise clearly required by the context:

Average dollar-and-cents markup. To find your average dollar-and-cents markup add together all the dollar-and-cents markups received on sales of the commodity (or included in the price, or prices, at which the commodity was offered for sale), and divide by the number of sales (or offers for sale). The result is your average dollar-and-cents markup.

(NOTE: As indicated in the definition of "dollar-and-cents markup" this term refers to your most recent "direct cost" for the commodity; the average markup is therefore based upon your most recent direct cost of the commodity and can be computed only from sales of a commodity covered by a single purchase invoice.)

Category. This term means a line of merchandise, a merchandise department, or a group of commodities which are normally classed together in your trade for selling, buying, merchandising or accounting. You might, for example, have a category such as one of the following: men's clothing; men's furnishings; infants' wear; canned fruits; cosmetics and toiletries; frozen foods; notions; musical instruments; women's coats and suits; cotton piece goods; major household appliances; women's house dresses; office furniture; hand tools.

Class of purchaser or purchaser of same class. This term refers to the practice adopted by a seller in setting different prices for sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, shopper, retailer, Government agency, public institutions or individual consumer), or for purchasers located in different areas or for purchasers of different quantities or grades or under different terms or conditions of sale or delivery.

Commodity. This term includes commodities, materials, articles, products, supplies, components, processes and contracts to buy, sell or deliver any of the foregoing.

Delivered. A commodity shall be deemed to have been delivered during specified period if during that period it was received by the purchaser or by any carrier, including a carrier owned or controlled by the seller, for shipment to the purchaser.

Direct cost. This term refers to your invoice cost less any discount or allowance you took or could have taken. It includes separately stated charges such as freight, warehousing, taxes, etc. It does not include local trucking or local unloading, except where it can be clearly established that such service customarily was not included in the invoice cost or in your markup.

Director of Price Stabilization. This term extends to any official (including officials of regional or local offices) to whom the Director of Price Stabilization by order delegates the function, power or authority referred to in this regulation.

Dollar-and-cents markup. This term refers to the difference between your most recent direct cost for the commod-

ity sold or offered for sale and the selling or offering price of that commodity.

Offering price. The price at which a commodity was offered means the price quoted in the seller's price list, or if he had no price list, the price which he regularly quoted in any other manner. This regulation requires that an offer for sale other than at retail must have been in writing. For sales of commodities at retail the offer must have been made at the immediate point of sale (e. g., the shelves or counters). The term offering price does not include a price intended to withhold a commodity from the market or a price offered as a bargaining price by a seller who usually sells at a price lower than his asking price.

Person. This term includes any individual, corporation, partnership, association or any other organized group of persons, or legal successors or representatives of the foregoing, and the United States or any other Government or their political subdivisions or agencies.

Records. This term means books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

Sell. This term includes sell, supply, dispose, barter, exchange, lease, transfer, deliver, and contracts and offers to do any of the foregoing. The terms buy and purchase shall be construed accordingly.

Seller. This term includes the seller of any commodity. Where a seller at retail makes sales through more than one selling unit (other than salesmen making sales at uniform price) each such separate place of business shall be deemed to be a separate seller.

You. The pronoun you as used in this regulation indicates the person subject to the regulation.

(NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.)

Effective date. This regulation is effective immediately.

Director of Price Stabilization.

[General Ceiling Price Regulation, Supplementary Regulation 1, Amdt. 4]

GCPR, SR 1—DEFENSE AGENCY PRICING
SALES OF SOAP TO OFFICE OF RUBBER RESERVE

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 4 to Supplementary Regulation 1 to the General Ceiling Price Regulation (16 F. R. 808) is hereby issued.

STATEMENT OF CONSIDERATIONS

This Amendment 4 to Supplementary Regulation 1 to the General Ceiling Price Regulation adds the Office of Rubber Reserve, Reconstruction Finance Corporation to the list of Defense Agencies named in section 16 (b) insofar as the sale of soap for use in the manufacture of synthetic rubber is concerned.

The manufacture of synthetic rubber, conducted almost entirely under the auspices of the Office of Rubber Reserve, requires soaps made from specially processed tallow to serve as an emulsifying agent in the polymerization of butadiene and styrene, principal ingredients of most synthetic rubber. There is no satisfactory substitute.

The Office of Rubber Reserve purchases these special soaps, manufactured to its specifications, through a competitive bid system under which contracts are normally awarded from 30 to 60 days prior to actual delivery. Soap manufacturers claim that price increases in the cost of the special tallow have made it impossible for them to furnish the necessary soap to the Office of Rubber Reserve at ceiling prices.

This amendment is considered necessary in order that the manufacture of synthetic rubber, which is critically needed for civilian and military products, shall not be impeded pending consideration of adjustment applications filed by the soap manufacturers. Under it, manufacturers of these soaps can continue making deliveries and at the same time file their applications for price adjustments in accordance with the provisions of sections 10 through 13 of Supplementary Regulation 1.

AMENDATORY PROVISIONS

1. Section 16 (b) of Supplementary Regulation 1 is amended by inserting after the words "Coast Guard" the words "the Office of Rubber Reserve, Reconstruction Finance Corporation in the purchase of soap for use in synthetic rubber manufacture."

2. Section 16 (b) of Supplementary Regulation 1, as amended, reads as follows:

(b) The term "Defense Agency" as used in this regulation means the Department of Defense (including the Department of the Army, the Department of the Navy, and the Department of the Air Force) the Maritime Administration of the Department of Commerce, the United States Coast Guard, the Office of Rubber Reserve, Reconstruction Finance Corporation in the purchase of soap for use in synthetic rubber manufacture, and the Atomic Energy Commission.

In the formulation of this order, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all trades and industries affected in advance of the issuance of this order has been rendered impracticable by the fact that the order affects a large number of different trades and industries.

SECTION 1. What this order does. The purpose of this order is to limit the use of iron and steel in the manufacture and assembly of certain products.

SEC. 2. Definitions. As used in this order:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons and includes any agency of the United States or any other government.

(b) "Base period" means the 6 months' period ending June 30, 1950.

(c) "Manufacture" means to put into process, machine, fabricate, or otherwise alter materials by physical or chemical means.

(d) "Conversion steel" means steel mill products which have been obtained by the consumer in consequence of the consumer or some other person having furnished, directly or indirectly, to one or more steel producers or converters, steel mill products in a less finished form such as, but not limited to, ingots, blooms, billets, slabs, rods, skelp, and hot rolled sheets in coils, for the express purpose of procuring such steel mill products.

SEC. 3. Iron and steel forms and products to which this order applies. This order applies to the iron and steel forms and products listed in Table I of NPA Order M-1, as amended.

SEC. 4. Application of order. This order applies to persons who use iron and steel products for purposes of manufacture or assembly, and limits the use of such materials in the manufacture or

assembly of certain items. This order does not apply to the production of iron and steel.

SEC. 5. Use of iron and steel products in consumer durable goods. (a) Subject to the exemptions stated in section 6, and unless specifically authorized in writing by the National Production Authority, no person shall use during the calendar quarter commencing on April 1, 1951, in the manufacture of any item included in List A at the end of this order a total quantity by weight of iron and steel products in excess of 80 percent of his average quarterly use of such materials in the manufactured item during the base period; *Provided, however,* That such use in any one month shall not exceed 40 percent of the permitted quarterly use. However, if such person has changed since July 1, 1950, or hereafter changes, from the manufacture of any part made wholly or partly from iron or steel products to the purchase of such part, he shall make a deduction from his total permitted use of iron and steel products under this paragraph in an amount equal to 80 percent of the material which he used in the manufacture of such part during the base period. During the calendar quarter commencing on April 1, 1951, any person who does not use any iron or steel product in the manufacture of an item in List A but who assembles parts made wholly or partly from such material into such item shall not assemble a total number of units of such item in excess of 40 percent of the number of such units which he assembled during the base period.

(b) Any person who, during the 6 months' period ending December 31, 1950, used conversion steel in the manufacture or assembly of any items included in List A shall, during the calendar quarter commencing on April 1, 1951, use conversion steel in the manufacture or assembly of such items to the extent stated in this paragraph. The ratio between conversion steel and total steel so used by such person shall not be less than the ratio between conversion steel and total steel received by him during the 6 months' period ending December 31, 1950; *Provided, however,* That in the alternative and in the event it is not practicable to determine the quantity of conversion steel used in the manufacture or assembly of items in List A, the relationship between conversion steel and total steel shall be as follows: The ratio between conversion steel and total steel used in his total production, including all items in List A, shall not be less than the ratio between conversion steel and total steel received by him during said period. Any person who selects and applies either of the alternatives above stated may not subsequently apply the other alternative without the written approval of National Production Authority.

SEC. 6. Exemptions. (a) The manufacture or assembly of any item in List A to fill rated orders, or to meet any mandatory order of the National Production Authority, is permitted in addition to the manufacture or assembly permitted by section 5.

(b) Section 5 does not apply to persons who use less than 100 short tons of iron and steel products in any calendar quarter. However, any person who by reason of the provisions of section 5 would be permitted to use less than 100 short tons of such materials during any calendar quarter, may use during such period a quantity up to 100 short tons; *Provided,* That notwithstanding the foregoing, no person shall use during the calendar quarter commencing April 1, 1951, in the manufacture or assembly of any items included in List A a total quantity by weight of such materials in excess of his average quarterly use thereof for such purposes during the base period.

SEC. 7. Application for adjustment. Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, or because any provision otherwise works an undue and exceptional hardship upon him not suffered generally by others in the same trade or industry, or its enforcement against him would not be in the interest of the national defense or in the public interest. Each request shall be in writing and shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

SEC. 8. Records and reports. (a) Each person participating in any transaction covered by this order shall retain in his possession for at least 2 years records of receipts, deliveries, inventories, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this order have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(b) All records required by this order shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of the National Production Authority.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act (Pub. Law 831, 77th Cong., 5 U. S. C. 139-139F).

SEC. 9. Communications. All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M-47.

SEC. 10. Violations. Any person who wilfully violates any provisions of this order or any other order or regulation of the National Production Authority or wilfully conceals a material fact or furnishes false information in the course of operation under this order is guilty of a crime and upon conviction may be

punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act.

This order shall take effect, except as otherwise specifically stated, on March 7, 1951.

CIVIL AERONAUTICS BOARD

[14 CFR, Parts 20, 22]

CONVENTION ON INTERNATIONAL CIVIL
AVIATION; GLIDER AND FREE BALLOON
PILOTS

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bu-reau of Safety Regulation, notice is hereby given that the Bureau will pro-pose to the Board amendments of Parts 20 and 22 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by sub-mitting such written data, views, or arguments as they may desire. Com-munications should be submitted to the Civil Aeronautics Board, attention Bu-reau of Safety Regulation, Washington 25, D. C. All communications received by March 26, 1951, will be considered by the Board before taking further action. Copies of such communications will be available after March 30, 1951, for ex-amination by interested persons at the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

On March 22, 1950, the ICAO Council adopted Amendments 1 to 123 of Annex 1 to the Convention on International Civil Aviation, effective April 1, 1951. Amendments 65 and 66 prescribe new

ICAO standards for private glider pilots and free balloon pilots. The new stand-ards are essentially those of the Federa-tion Aeronautique Internationale who applied them in international glider and free balloon meets. These standards were adopted by ICAO especially for their value in such international meets and because the Federation urged that only applicants licensed in accordance with international standards be author-ized to participate in future interna-tional meets. The proposed amend-ments of Parts 20 and 22 are intended to make our standards uniform as far as practicable with those established under the Convention. The amend-ments required for such compliance ap-pear to impose few additional burdens on applicants for these certificates. Moreover, under the proposed amend-ments, the certificates would be issued without operating limitations, so that qualified pilots may, consistent with safety, exercise their privileges in full.

Amendment 65 establishes standards for the issuance of flight certificates to private glider pilots. To comply with those standards, Part 20 of the currently effective Civil Air Regulations would need to be amended: (1) To raise the age minimum from 14 to 16 years, (2) to include among our knowledge require-ments a knowledge of aeronautical charts, navigation or other instruments used in operating gliders, meteorology, theory of flight, and glider operating lim-itations, (3) to require 6 aero-tow flights as a part of our experience re-quirements, and (4) to require 3 hours in a glider suitable for cross-country flight. In all other respects, Part 20 currently complies with the principal ICAO standards in Amendment 65.

Amendment 66 of Annex 1 establishes standards for the issuance of flight cer-tificates to free balloon pilots. To com-ply, or to make our requirements uniform, with those standards, Part 22 of our present regulations would need to be amended: (1) To reduce the age minimum from 18 to 17 years, and (2) to require 8 ascents of an average dura-tion of two hours as part of our experi-ence requirements. At present Part 22 requires 6 instruction flights of not less than one-hour duration each and a solo flight of the same duration. The pro-posed amendment requires 6 ascents under the supervision of a certificated free balloon pilot, 1 ascent in control to an altitude of 10,000 feet under such su-pervision, 2 night ascents of an average duration of two hours under such super-vision, and 1 solo ascent. In all other respects, Part 22 currently complies with the principal ICAO standards in Amendment 66.

It is proposed to amend Parts 20 and 22 as follows:

1. By amending § 20.20 (b) to read as follows:

§ 20.20 *Age*. * * *

(b) Glider: 16 years.

2. By amending § 20.24 to read as follows:

§ 20.24 *Aeronautical knowledge*. Ap-plicant for a powered aircraft rating shall have passed the written examina-tion prescribed in § 43.53 (a) of this sub-

chapter within the preceding 24 calendar months. An applicant for a glider rating shall demonstrate a knowledge of such portions of Part 60 of this subchapter as are pertinent to glider operations and of aeronautical charts, meteorology in relation to glider flights, navigation and other instruments used in the operation of gliders, theory of flight, and glider operating limitations.

3. By amending § 20.25 (b) to read as follows:

§ 20.25 *Aeronautical experience.* * * *

(b) *Glider.* Applicant for a glider rating shall have made at least 100 glider flights, or have acquired 10 hours of glider flight time including at least 50 glider flights. The total number of required flights shall include at least (1) 25 glider flights during each of which a 360° turn is made; (2) 6 aerotow flights, aggregating one hour, during which the applicant is the sole occupant of the towed glider; (3) 1 hour of flight instruc-

tion in the recovery from stalls entered from all normally anticipated flight attitudes; (4) 2 hours in the aggregate during which the applicant is the sole occupant of the glider; and (5) at least 3 hours in a glider suitable for cross-country flight.

4. By amending § 22.13 (a) to read as follows:

§ 22.13 *Free balloon pilot certificate.* * * *

(a) *Age.* Applicant shall be at least 17 years of age.

5. By amending § 22.13 (g) to read as follows:

§ 22.13 *Free balloon pilot certificate.* * * *

(g) *Aeronautical experience.* Applicant shall have made not less than 8 ascents of an average duration of 2 hours, including 6 ascents under the supervision of a certificated free balloon pilot, 1 ascent in control to an altitude of 10,000

feet under such supervision, 2 night ascents of an average duration of 2 hours each under such supervision, and 1 ascent as the sole occupant of the balloon.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposed amendments may be changed in view of comments received in response to this notice of proposed rule making.

TONKAWA SALES CO.

DEPOSTING OF STOCKYARD

It has been ascertained that the Tonkawa Sales Company, Tonkawa, Oklahoma, originally posted on December 7, 1949, as being subject to the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer comes within the definition of a stockyard under said act for the reason that it no longer meets the area requirements. Therefore, notice is given to the owner of such stockyard and to the public that such stockyard is no longer subject to the provisions of said act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers

and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not depositing promptly a stockyard which no longer meets the area requirements of the act and is, therefore, no longer a stockyard within the definition contained in said act.

The foregoing rule is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after publication thereof in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER.

(7 U. S. C. 181 et seq.)

Done at Washington, D. C., this 5th day of March 1951.

SECURITIES AND EXCHANGE COMMISSION

E. F. HICKEY ET AL.

MEMORANDUM OPINION AND ORDER REVOKING REGISTRATIONS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 2d day of March A. D. 1951.

In the matter of E. F. Hickey, c/o Young Men's Christian Association, 125 Northwest Second Street, Oklahoma City, Oklahoma; in the matter of Bob Higgins, Box 11, Wellston, Oklahoma; in the matter of Orville Lyman Likens, 706 Northwest Twenty-ninth Street, Oklahoma City, Oklahoma; in the matter of Frederick H. Savage, 730 Fifth Avenue, New York, New York; in the matter of James L. Simpson, 50 Broadway, New York, New York; in the matter of Louis R. Soresi, 308 West Forty-eighth Street, New York, New York; in the matter of Stanley & Company, 120 Wall Street, New York, New York; in the matter of John Talton Walker, Washington-Yoree Hotel, Shreveport, Louisiana; in the matter of William Herbert West, Valley Falls, Kansas; in the matter of Glen B. Young, Oipe, Kansas.

These are proceedings pursuant to section 15 (b) of the Securities Exchange Act of 1934 ("the act") to determine whether the registrants named above, each of whom is registered as broker and dealer or as dealer only, willfully violated section 17 (a) of the act and rule X-17A-5 thereunder, and, if so, whether it is in the public interest to revoke their registrations.¹

The proceedings were instituted by separate notices and orders for hearing issued as to some of the above-named registrants on December 19, and to the others on December 22, 1950. On December 19 and December 26, 1950, copies of the notices and orders were sent by registered mail to the addresses last furnished to us by the registrants. These registered notices were returned to us by the Post Office Department with notations indicating that the registrants could not be found at the addresses given. None of the registrants appeared in person or through a representative on January 26, or January 29, 1951, the dates set for hearings.²

On November 28, 1942, we promulgated Rule X-17A-5 under section 17 (a) of the act, which provides, among other things, that every registered broker or dealer must file with this Commission a report of financial condition during each calendar year commencing with the year 1943. Promulgation of the rule was announced by publication in the FEDERAL REGISTER, by release to the press, and by distribution to persons on our mailing list.

The registrations of the registrants became effective prior to 1943, and have not been withdrawn, cancelled, revoked or suspended. Our records show that none of the registrants filed the required reports during any year from 1943 through 1949.

Upon review of the records in these proceedings we have concluded that each of the registrants violated section 17 (a) of the act and Rule X-17A-5 thereunder as a result of his failure to file such reports. We conclude also that such violations were willful within the meaning of section 15 (b).³

We conclude, on the basis of the foregoing, that it is necessary in the public interest to revoke the registration of each of the registrants. However, in view of the fact that our records do not show whether any of them actually received personal notice of the scheduled

¹ Section 15 (b) provides in part:

"The Commission shall, after appropriate notice and opportunity for hearing, by order . . . revoke the registration of any broker or dealer if it finds that such . . . revocation is in the public interest and that (1) such broker or dealer . . . (D) has willfully violated any provision . . . of this title, or of any rule or regulation thereunder."

² Our orders and notices instituting these proceedings provided that the same be published in the FEDERAL REGISTER not later than 15 days prior to January 26, or January 29, 1951. Pursuant to this provision the orders and notices were published in the FEDERAL REGISTER either on December 27, or December 30, 1950. 15 F. R. 250, 9338 and 15 F. R. 253, 9542-5.

hearings, and to avoid any possible prejudice to them, our order will provide that the revocation of registrations be without prejudice to a motion on the part of any registrant to reopen the proceedings and to seek, upon a proper showing, to set aside the order of revocation applicable to said registrant.⁴

Accordingly it is ordered, That the registrations of E. F. Hickey, Bob Higgins, Orville Lyman Likens, Frederick H. Savage, James L. Simpson, Louis R. Soresi, Stanley Peter Mulvey and James Sylvester Kelly, doing business as Stanley & Company, John Tallton Walker, William Herbert West, and Glen B. Young be, and they hereby are, revoked without prejudice to a motion by any of the said registrants to reopen the record in the proceeding and, upon a proper showing, to set aside the order of revocation applicable to said registrant.
